

PLEASE!!! do not take away my right to listen to uplifting music and messages from K-Love and other Christian radio stations. They are a huge part of my life and will impact my life in a bad way to not have the option to listen to Christian music and message. On secular radio my children and I can hear about Men's clubs and the wonderful talent of the x-rated stars, we can hear about running through a grocery store naked and other such trash. Please don't force such trash on me and my family. Leave the choice alive.
